## Jumpstart -Results-

4-H club leadership met October 30th from 10:00am to noon. Leaders practiced their roles, as well as other club roles to help better understand the work involved in other club positions. We planned out a pizza party, using parliamentary procedure and basic club operations and rules. Jumpstart ended with a true pizza party with arcade games. 4-H leaders got to enjoy fresh pizza accompanied with Pac-Man and Marvel Superheroes games!

If your leaders need training and weren't able to make it to Jumpstart, please contact the office and we will facilitate a training for them!

## **Montana 4-H Shooting Sports Fall 2020 Guidelines**

Montana 4-H Shooting Sports activities will follow the COVID-19 Guidelines for MSU Extension In-Person Events and Activities, Dated September 21, 2020 until an updated version is available.

- If you are not feeling well, please do not attend an event.
- If your county has less than four cases, facemasks do not need to be worn inside. If there are more than 4 cases, facemasks must be worn.
- Ensure that a certified leader appropriate for the discipline is present for the activity. Also ensure that there are two adults present to run the activity.
- To manage the numbers of shooters present, use sign up times for practice times. This will allow for management of numbers to allow physical distancing.
- If the event does not allow for physical distancing of six (6) feet, do not do the event if over 50 individuals are present.
- For the safety of the archer, do not use a face mask. Rearrange relays to maintain social distance of 6 feet.
- Rearrange firing points to allow for six feet of distance between shooters. For Airgun, smallbore, and, archery, a suggested two firing points between shooters would be sufficient. Shotgun activities such as Trap would satisfy the requirement. The squad of five shooters would need to maintain the 6 feet of distance.
- As under Standard Best Practices, Eye Protection and appropriate Hearing Protection need to be used.
- Do not share equipment unless to family members. Assign equipment to each shooter to minimize cross contamination.
- At the conclusion of the practice session, sanitize all shooting surfaces, tables, etc. Be sure to have shooters wash their hands with soap and water before and after the activity. A bleach solution may be used. Following the guidelines from the CDC; To make a bleach solution, mix: 5 tablespoons (1/3rd cup) bleach per gallon of water OR 4 teaspoons bleach per quart of water. **Alcohol solutions with at least 70% alcohol may also be used.** For complete CDC Guidelines, please see the following website address; <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/cleaning-disinfection.html>.
- It is recommended to wipe down Firearm, Archery, and Airgun Equipment with appropriate cleaning and lubricating solvents at the end of each session.
- Contact your County Health Office to see if there are any further guidelines.
- Have Fun and Be Safe. Good Luck and Shoot Well.
